If no home is provided to me after all I have suffered, I would like to be officially ex communicated from Australia who has brutally betrayed me and gain a life with basic provisions elsewhere in the 5 eyes, either New Zealand, Canada, Switzerland, options may be open.

I write not because I am suicidal but because without change I won't survive.

It is to oppose my impending doom, for the hope of a life free from victimisation oppression family violence coercive financial control poverty homelessness lack of medical care and a simple place to be for my precious dog and I. I miss her so much.

Regarding Dr Richard William McLean, who has no rights, no access to the law or equality before it, a rejected whistleblower, who can't report this systemic politicised oppression to police, who is a democratic Australian citizen with a clean criminal record cord yet a persecuted oppressed and victimised scapegoat, He has been now ex-communicated from the Australian Government because of his former partner Stefan Iasonidis who worked for the secret service ASIO.

Prime Ministers response which has been ineffective,

Death threat to my dog and I apparently from Mr Iasonidis who has now been done
for a million embezzlement due to his corrupt finances.

I am violently attacked inside Weribee mercy hospital.

Opposing scapegoating and demanding accountability in demanding the NDIS to provide me with reasonable accomodation for my dog and I.

Preface to the prime Minister:

Please can you seem attached letter about my accomodation and my situation of being a scapegoat?

I am struggling with the magnitude of this provable phenomenon in which I have been heinously victimised, oppressed gaslighted, systemically and politically robbed, and ignored to the point of death and back.

If you would please indulge me, all I want in life is a quiet home form husky and I, and enough food and medicine, nothing more.

All of this detriment and all of this drama could be wiped clean if I was just provided a meaningful amount of comfort in life and protection from exploitation and violence, including the violence of neglect.

I write these letters nt because I am suicidal, but because I have fierce resilience to live a better life than the one I have been dealt.

There is no recovery for a scapegoat now.

Only the hope that I can make some adjustments with someones blessing in order to salvage what's left of my shattered life.

To actively act in order to bring about my death by suicide is an abhorrent and cowardly thing that would conveniently blame mental illness or drugs and then exonerate all public officials politicians and lawyers of any liability or malice, and that would be the perfect crime.

mark my words I will not die quietly and I refuse to be sacrificed as a political scapegoat to save face of a politicised system of ultimate power that will not admit liability of its many corrupt key political stakeholders as public officials.

This could be solved by just showing some compassion and gratitude for the thirty or more years service I gave to Australia as an Advicate and coming to an agreement where I could finally rest and be safe, and you could all excuse yourselves of wrongdoing, as silly as that is.

Dr Rich Mclean

Scapegoat.

This letter has been published online at (<https://barrandodger.wixsite.com/dr-rich-mclean/23-10-23-my-accomodation-ndis>).

I am writing today for an urgent intervention to release my NDIS funding so that I may be afforded a home after at least three years of homelessness, repeat hospitalisations, and profound struggle.

The reason I keep writing letters when it has no effect or consequence over years and years to many agencies is because I know what's happened to me, its a formal way of expressing yourself even if it is unacknowledged, it is a peaceful way of resolving conflict, and I hope one day that after all these letters are documented that it will be impossible for me not to be ignored harmed conspired against robbed gaslighted or not acknowledged anymore. I pray that a meaningful intervention in my situation is imminent. That is because my life it existentially at risk.

That is after Ive been systemically and politically robbed, beaten up, drugged and raped, fiddled with as a kid, my homes destroyed, my possessions destroyed, my business ruined and website deleted, my accreditation cancelled, rejected settlements, insurances, the ability to sue anyone removed, rejected work cover claims, rejected a settlement for my legitimate relationship in which I was engaged to be married, I have been literally run out of town by police, I have been surveilled, gang-staked, suffered the indignity of subsonic harassment, had my possessions destroyed, rejected my medication that has proven to make me well, been told I have HIV when leaving hospital, been rejected dental care, my family and friends have forsaken me, my documented human rights abuses have never been investigated, I have been set up to fail, exploited, fired, literally run over by I suspect a government vehicle in the street, violently attacked by a not so undercover thug inside a hospital, that I've suicided from the prolonged systemic politicised abuse and violence of neglect and it be deemed fatal and a lethal injury, only to suffer a cognitive brain impairment and yet another cover up from all sectors up to and including the ombudsman, then suffered what can only be described as a biblical level forsaking in which I have been ex communicated from society politics and the legal system, and to top it all off, been needlessly incarcerated as a political prisoner for months on end, and then force injected with mind numbing medication for my apparent 'ingrained delusions of persecution.'

The Government is making an already vulnerable person even more sick and desperate in away that is calculated systemic malicious and consciously designed to cause me harm and render me without any prosperity whatsoever.

My imminent problem that is a threat to my welfare wellbeing and my life is systemic and it is political. It is also cruel and callous. I am certain I am a scapegoat. I provide evidence for everything I say in this impassioned letter and I have published it all on my website, the latest incarnation of which has survived so far.

I am officially homeless on paper. I have the disabilities of schizophrenia, ADHD and adjustment disorder with an additional cognitive brain impairment.

Its true I have metal illness, but that does not exclude that a conspiracy to pervert the course of justice has and is occurring.

On 17 July 2008 and 30 July 2009 sequentially, Australia ratified the CRPD and the Optional Protocol of the Convention Human Rights for Person with a Disability which states reasonable accomodation must be provided but this has not happened.

“Discrimination on the basis of disability” means any distinction, exclusion or restriction on the basis of disability which has the purpose or effect of impairing or nullifying the recognition, enjoyment or exercise, on an equal basis with others, of all human rights and fundamental freedoms in the political, economic, social, cultural, civil or any other field. It includes all forms of discrimination, including denial of reasonable accommodation;

“Reasonable accommodation” means necessary and appropriate modification and adjustments not imposing a disproportionate or undue burden, where needed in a particular case, to ensure to persons with disabilities the enjoyment or exercise on an equal basis with others of all human rights and fundamental freedoms;’

Paula Amory of Prag consulting and Imran from free Living Australia a former NDIS provider are tasked in the next couple days to try and secure my dog and I accomodation after I have again for the third time left a psychiatric unit after a stay in hospital and had my home displaced and then dumped into accomodation that is not suitable nor sustainable.

I believe trying to release my funding so that I can financially have a home for my beloved husky and I is doomed to fail for the reasons I outline in this letter but I am hopeful someone will take this letter and its attached facts seriously and provide a new course where I won't be forced to be dead in a ditch.

The Government seems to be my nemesis ever since my former partner Stefan Iasonidis left me homeless with his dying dog, and refused a fair equal and just settlement. He enacts family violence through coercive financial control and every day I live in poverty is another day that family violence wins and that is not ok.

I have attached bank statements ((1) attached) in each others name and out lease agreement ((2) attached). I could also attach five years worth of photos but you get the picture, the relationship is an irrevocable fact but no government agency will admit the relationship ever occurred including IGIS The OPMC and the Ombudsman.

I wrote to the prime ministers office ((3) <https://barrandodger.wixsite.com/dr-rich-mclean/letter-to-prime-minister>) outlining my enormous burdens and he sent me to attorney general mark Dreyfus office (3) (Mark Dreyfus has never once responded to my emails or calls), and his office directed me to AGIS and the Commonwealth Ombudsman. (3).

But AGIS already know about iasonidis (4) and refuse to investigate his corrupt conduct of exploiting me. Likewise the commonwealth ombudsman have rejected my public interest disclosure (5) and have refused all future correspondence.

Likewise I have fallen foul of many government agencies always acting towards my detriment.

I am banned at AFCA. This has led to millions of dollars detriment. They had six weeks to make a determination for a marginalised person in financial dire straits but mine took years. Tim Gos was recorded delaying, denying and deferring my determinations obviously in full knowledge of this.

He is the head of service delivery at AFCA and also a lawyer.

I have suffered the intentional redactions of all these financial detriments:

1. Unfair Termination Settlement (2004): My journey began with a pursuit related to an unfair termination from The Age newspaper in 2004.
2. Work Cover Settlement (2004): I also sought a settlement related to a Work Cover case from 2004, stemming from workplace injuries and compensation.
3. Incorrect TPD Payment (2008): In 2008, I encountered issues with an incorrect Total and Permanent Disability (TPD) payment, prompting my efforts to correct this discrepancy.
4. Medical Malpractice Settlement (2017): A significant part of my pursuit involved seeking a settlement for a medical malpractice case in 2017, highlighting the complexities of navigating the healthcare system.
5. HCF Income Assist Settlement (2021): My quest for justice extended to addressing HCF income assistance in 2021, where I faced hurdles related to financial support.
6. Work Cover Settlement (2021): Another facet of my ongoing struggle involved pursuing a Work Cover settlement in 2021, focusing on workplace injuries and compensation.
7. Provisional Payments from Work Cover (2021): In the same year, I received provisional payments from Work Cover, illustrating the intricate nature of workplace injury claims.
8. Business Insurance Payout (2021): Additionally, I embarked on a journey to secure a business insurance payout in 2021, highlighting the challenges associated with financial claims.
9. Former Partner Settlement: My pursuit of justice also extended to seeking a settlement related to my former partner, further complicating my legal journey.

10. Settlement for Cognitive Brain Impairment: I endeavored to secure a settlement for a cognitive brain impairment sustained inside a hospital, where a duty of care was owed.
11. Website Maliciously Destroyed: My pursuit included a claim for the malicious destruction of my business website, shedding light on the challenges of addressing online issues.
12. Loss After Possessions Were Destroyed (2022): In 2022, I sought compensation for losses incurred after my worldly possessions were destroyed, further highlighting the intricacies of property claims.
13. Detriments at AFCA (2018-23): Over a span of several years (2018-2023), I faced significant detriments totaling over 2 million dollars after being banned from AFCA (Australian Financial Complaints Authority), underscoring the complexities of financial disputes.
14. Insurance Settlement at AHRC (2022): In 2022, I encountered detriments exceeding 1.5 million dollars after an insurance settlement was redirected to AHRC (Australian Human Rights Commission), shedding light on challenges within the human rights sphere.
15. Child Sexual Abuse Redress from DSS (2022): I pursued a child sexual abuse redress claim from the Department of Social Services (DSS) in 2022, facing delays, denials, and deferrals in the process.
16. VOCAT Cases (2019, 2021): My journey also encompassed VOCAT (Victims of Crime Assistance Tribunal) cases in 2019 and 2021, addressing issues related to child sexual abuse and violent affray, both of which faced challenges and rejections.
17. Compensation for Various Incidents: I actively sought compensation for a series of incidents, including being run over by a car, violently attacked inside a hospital, involvement in a conspiracy to pervert the course of justice causing death, and the subsequent whitewashing of that tragedy by high-ranking public officials who have a responsibility to act ethically under the Public Service Act.

My human rights abuses have actually been documented by my NDIS worker formerly of free living Australia. But the AHRC, tasked with investigating this, refuse to act. They have systematically rejected investigating all of my human rights abuses and refused further correspondence.

Additionally Liz Lindsberg from AHRC also before that free kicked a million dollar settlement in a totally non impartial way to the opposing side.

My HCF income assist never paid - they delayed denied and deferred until they have finally got a member of staff to place an AVO on me so that if I even call them, I could be arrested. They have shepherded me to AFCA, where as you know I am already banned.

My business www.richmclean.com.au was also maliciously destroyed by Government linked Micron21. That instantaneously destroyed twenty years worth of design and also my digital identity used to log into to every government website bank and company and member ship that I had. They did it - with impunity. The telecommunications industry ombudsman did not intervene neither did Business.gov neither did SBFBO. I was being dismantled out of society and the structures that I actually had worked hard for that were the architecture of my person were destroyed in a hateful way.

Likewise my workcover claim failed in a decision that went from work safe to comcare to the AAT and every step of the way I protested that I had no lawyer this was in opposition to the convention of human rights of a person with a disability in that I must have access to the law and equality before it.

The decision was already preempted to fail in a one sided uneven unfair and also illegal ruling. They said I was not a worker for the purposes of the SRC act. That is despite me having a DSS login, and a federal court document that is satisfied that I was employed by DSS. That was not an opinion - that was on a federal court letterhead by an official federal court representative. But as per usual, a way is found to deny me justice and it seems that those who have the most money and power win despite legitimate facts. The decision was illegal, and not impartial. I had begged the ombudsman and the attorney general to intervene, but they just ignored my pleas and I walked into a blood bath doomed to fail.

I am bankrupt from after when HCF and Iasonidis refused to pay after becoming unwell at work in jan 21. I am officially homeless, on paper and have been for nearly three years.

I am a destitute soul with no means for sustenance, medical care, or even the barest necessities. My life is a relentless nightmare, where I've been stripped of my legal rights, in that I have never ever been able to get a lawyer, unable to report crimes to the authorities or police. This is a tale of calculated and heartless victimisation, one borne of malicious intent.

The level of betrayal from my thirty year epoch in mental health advocacy is palpable in that I now realise that over all those years my good intentions were being exploited.

This systemic and prolonged victimisation and malicious intent in redacting my prosperity already caused me to attempt suicide in feb 21. I was revived from certain death and then the tragedy was whitewashed at HVCC, MHCC, The Police, IBAC, AHPRA, NHPOPC, and the Ombudsman, where I am also a failed whistleblower.

A lawyer named Russell Ball, also informs government policy and advises the ombudsman - he opposed me in a malpractice case where I had concrete evidence of wrongdoing. It was unfortunate as it was a recording of a private conversation - which I have and only make because my illness makes it such that I don't know what is real and what is not. That evidence, and the transcript of that evidence was silenced and whitewashed at HCC,

MHCC, The Police, IBAC, The Victorian Inspectorate, NHPOPC, AHPRA, Greg Hunt's office, The health department, and the ombudsman. That evidence is still existing and only after I survived a suicide attempt after telling the CAT team a conspiracy was destroying me did I find in the FOI that Russell Ball had silenced the evidence all the way.

Examples like this of rich powerful key political stakeholders with enormous power and privilege were making my life a living hell and literally the non acknowledgement of legitimate concerns that had affected my health wellbeing and life were now covered up which de legitimised my experience and also utterly de valued my life. Russell Ball, like Steve Iasonidis, acts via proxy attack from far away - I've never rally heard a squeak from either of them apart from the death threat from Steve via another person on a carrier service. They are watching. And they are hoping for my destruction before I get justice.

Let there be no doubt – my destitution and situation is not a reflection of character flaws or personal weakness. It is a deliberate, intentional design aimed at my complete impoverishment. A sinister scheme crafted to break my spirit and reduce me to a state of powerlessness. Its worked. You already won ok?

Even the highest office in the land, the Prime Minister, refuses to acknowledge my suffering. My FOI was described as 'voluminous' and 'complex' as it would be because I have spoken the length and breadth of this country as a mental health advocate, my former partner was in ASIO, and I was a former illustrator at both the Herald Sun and The Age. I was awarded SANE Australia's 'Book of the year' and was awarded with a human rights distinction. But then the office did an intentionally deceptive and untruthful 180 and denied my FOI stating that 'no documents exist' and this is an obvious lie and it would have revealed the relationship with Iasonidis at the least, as well as being banned at AFCA not acknowledged by the attorney general and be seen as a serial pest for sending literally thousands of emails like this one opposing my needless victimisation.

I write these emails not because I am suicidal but because I am demanding a better life! In that regard my strength and determination and my superpower of resilience is hard to miss.

Former Attorney General Michaelia Cash turned a blind eye to systemic corruption within institutions like the AHRC and AFCA when I predicted my work cover at AAT failing, way back before it did. My documented human rights abuses have been ignored by AHRC, left unsigned and uninvestigated, further perpetuating my torment.

When I sought help, the Prime Minister's office directed me to Attorney General Mark Dreyfus. His office suggested I turn to ASIS or the Commonwealth Ombudsman. But ASIS, well aware of my plight, coldly refused to intervene. The Commonwealth Ombudsman, in their callous indifference, rejected my Public Interest Disclosures (PIDs) and refuses any further engagement.

This campaign of oppression, these premeditated decisions to strip me of prosperity, have spanned years. They have forced me to the brink of despair, pushing me towards a desperate suicide attempt. That attempt was recorded as 'lethal' in the Werribee Mercy Hospital Freedom of Information (FOI) records.

Now, I bear the heavy burden of a cognitive brain impairment, a result of the tragic ordeal I've endured. My suffering has been systematically whitewashed, even by the very institutions tasked with upholding justice such as Weribee mercy hospital, police, ombudsman, the AHRC itself.

HCF, in a predetermined decision, refuses to pay my Income Assist insurance, leaving me to languish in desperation. To further silence me, they threaten me with an Apprehended Violence Order (AVO) from a staff member I've never even met.

My WorkCover claims, after being rejected at Comcare and later upheld at the AAT, were never paid. This miscarriage of justice was exacerbated by the involvement of high-profile government lawyers like Kate Watson, who knew they were exploiting my vulnerability, disregarding the human rights of a person with a disability.

I battle schizophrenia, ADHD, an adjustment disorder, and a cognitive brain impairment. Recently, while incarcerated, I was informed by psychiatrist Virginia Lay that I have HIV, adding yet another layer of torment to my existence. It has proven to be false but she simply meant to cause distress and that example is one which demonstrates the malice via which to unsettle me and to literally I believe aid and abet my death from suicide, I cannot see a reason other than that this is the contempt that my carers and public officials and lawyers and politicians have for me.

Tim Gos of AFCA, with evident malice, delayed, denied, and deferred my financial settlement, completely out of step with their own policy, which mandates a six-week resolution for financially marginalised individuals. I record things not out of extortion, but because my diagnosis of schizophrenia leaves a wide berth in my perceptions for what is true and what is false. I record things to test my own reality with conversations to myself because this movement of oppression has left me in a state of disbelief and I question everything that has happened to me and I am unsure what is real anymore.

Liz Lindsberg, within AHRC, shamelessly favored the opposition, free-kicking an over-million-dollar decision in this recording alone and it was entirely not fair and not impartial. The AHRC blatantly refuses to investigate my documented human rights abuses, casting aside any pretense of impartiality or fairness.

I have been treated unfairly and subjected to profound abuse, all part of a conspiracy designed to pervert the course of justice. There is no other conclusion I can draw from my experience. Every conspiracy must infiltrate the inner circle of the victim, and my own family has now cast me aside, fully aware of my desperate struggle, effectively becoming my enemies, putting me at risk of unspeakable harm.

They state that I am on drugs. To cope with the immense trauma of this conspiracy sometimes that has been true. Profound abuse makes you want to use drugs to escape your reality. That is also a compilation of Dr David Horgan and all health officials reject my script for dexamphetamine, that Dr Horgan applauded in my case as 'life saving benefits' and for which he is also now an enemy that denies that script and it has caused me harm because I have self medicated with street drugs to attain the same clarity I had for nearly a decade, when whilst I was on it did a Masters Degree, wrote and illustrated a children's book and fundraised for the royal children's hospital, completed a PhD and published a

lifetime of my work and also ran my own business for nearly two years continuing my services to the marginalised Australian community as a provider and employee of DSS working for the NDIS under a government contract.

This is a story of relentless torment, of deliberate cruelty, and of an unwavering quest for justice in the face of insurmountable odds.

I have a choice tomorrow.

That is:

1. To wait for Paula of Prag Consulting or Imran who I worked with previously at Free Living Australia and who had semi-successfully housed me before to try and get my adequate funding released from the NDIS in order to finally have a home for my beautiful husky and I who I miss so much, (That could happen almost immediately but try telling that to a Government bureaucracy),
2. Or to spend every cent I have on petrol travelling from Clyde to Williamstown and back again for a very slim chance at a private rental with a lady I met on the internet. I will pay \$300 per week and have olive off the other \$150 per week for all food medicine bills and dog food.

How can I insist on Bill Shortens office to urgently intervene in my situation and my plight? Especially as he has banned me from e-mailing him from a few of my email addresses and who previously did not already intervene but sent a gang of police toxic my door down cuff me and take me to hospital where I then lost the actual home I was in?

How am I ever going to get my story acknowledged by Government agencies when it is those agencies who are abusing and neglecting me and acting towards my detriment?

How is it possible that I have suffered so much at the hands of government statutory authorities politicians and non existent lawyers in my time and then every time you have finally nearly intentionally broken my spirit the only people obligated to save a dying man who has nothing and no one and not even a lace to be - the CAT team police and hospitals, step in for yet another laborious hospitalisation?

Only then to keep me contained as a political prisoner in which I am retraumatised by the very nature of being 'cared' for my the very system that silenced my suicide tragedy?

Ive had enough and I am at the end of my rope again.

I am not suicidal.

But if this NDIS decision to deny me my accomodation when it is demonstrable that there is enough in my plan to do so, and the fact I am a rejected whistleblower at the NDIS and

the DSS both cases in which my legitimate concerns were quashed and denied is yet another plain example of a bureaucracy gone mad!

I deserve a home!

I worked for thirty years in this country serving Australia on local state national and even international levels!

I have a doctorate in what is mad and what is not mad!

My assessment of society was that madness in individuals is very rare but in society it is the norm!

Please I am begging you too do the right thing and acknowledge this letter and for hopes sake release my funding so I can even have a place to be withy dog and I!

I have not asked for much in fact its my human right but the level of betrayal from all the people Ive helped and the Government boggles my mind!

All you need to do is simply acknowledge a relationship that is a proven fact and this whole thing will become unravelled. Why is that so hard to do? After all I have walked a path of truth and hoping others mostly for altruism for thirty years in a peaceful and non violent fashion. He on the other hand has been present at murders I know about, abuses animals, has exploited me, put over a million in an offshore tax haven, apparently been done for embezzlement and now threatens to kill both me and my dog. Why is this ok for you all given that he was also a drug dealer and has acted so greedily and with so much malice to harm me? The government even have his back and I am blown away by how one malicious sociopathic man could convince an entire government to side with him when it is clear it is HIM who is the criminal and now ME!

What have all these public officials done for anyone else of late instead of just being government pawns on very comfortable packages to tow the party line of their corrupt overlords?

I am resilient, and I am speaking truth to power.

This is the hill I die on and if that is the case then so be it but there are thousands of emails and six hundred of my YouTube videos that are live only protesting my treatment my victimisation and this god damn conspiracy that's literally already killed me.

Why would you choose to do this to me? If it is the case I am killed by this violence of neglect, those videos will stand testament to my struggle and I will be exonerated from beyond the grave when the coroner investigates the cause of my death.

Please provide me my accomodation, it is in the Convention Human Rights for Person with a Disability and I have enough funding in my plan. Lastly DHHS have written to me

rejecting that they even provide accomodation and all other domestic solutions have been exhausted.

Richard able to recall and understand why he was brought into ICU. Showed insight into his action however remains to be supportive of this. Richard reported he thought this was the only way 'out of that place'. He reported feeling locked up. He referred to himself as being 'jailed'.

Richard acknowledged concerns from community regarding his plan to end his life on his Bday hence admission was warranted to prevent this. Richard abruptly stopped the assessment and asked all 3 clinicians credentials again. This was given again to him. Richard refused to talk any further as he felt that CL team were recording. Referred to CL team as 'Part of the system'. CL team provided some further information around role and reason for review today in order to ease anxiety and confusion.

Hello Matthew,

I have listened to the recording of the consultation. There are many errors and omissions, identified by my "scribbles" on the attached copy of Mr McLean's transcript. In my submission. The inaccuracies are substantial and the Board should not rely on the transcript, or be very circumspect if it does so.

In the "key facts" at the start of the document, Mr McLean says that "His [Dr Whitaker] NDIS plan was not necessary". This gives the erroneous impression that Dr Whitaker imposed the document on Mr McLean. He presented the NDIS plan for completion by Dr Whitaker, having made a one hour appointment for that purpose.

Otherwise, I refer to the substantive response on behalf of Dr Whitaker and my submissions regarding the consultation and the recording of it by Mr McLean.

Regards

Russell Ball

Dear Dr McLean

Thank you for your email of 5 July 2023 to the Prime Minister, the Hon Anthony Albanese MP, regarding your interactions with several Australian Government agencies, including the Australian Security Intelligence Organisation (ASIO). Your correspondence has been referred to the Attorney-General, the Hon Mark Dreyfus KC MP, as the matters you raise fall within his portfolio responsibilities. The Attorney-General has requested that the Attorney-General's Department respond to you on his behalf. I apologise for the delay in response.

It appears from your correspondence that you are concerned about the conduct of ASIO. You may wish to refer the details of your concern to the Inspector-General of Intelligence and Security (IGIS). The IGIS is responsible for reviewing the activities of the Australian intelligence agencies under its jurisdiction to ensure that the agencies act legally and with propriety, comply with ministerial guidelines and directives, and respect human rights. Information about making a complaint can be found at www.igis.gov.au/complaints.

You have also mentioned concerns about several Commonwealth Government agencies. You may wish to refer the details of those concerns to the Commonwealth Ombudsman (Ombudsman). The Ombudsman is an independent statutory officer to whom Parliament has given a range of functions including investigation of Commonwealth administrative action. If you wish to lodge a complaint about an agency's conduct, a form is available at www.ombudsman.gov.au. A complaint can also be made by calling 1300 362 072.

Thank you again for bringing your concerns to the Government's attention. I trust this information is of assistance to you.

Yours sincerely
