Subject: A notice regarding your ARENA funding application [DLM=For-Official-Use-Only]
]

Dear Applicant,

Today ARENA announced a new General Funding Strategy (GFS) for the next three years, an updated Investment Plan (IP) and a new structure for its funding programmes. These documents can be found on ARENA's website.

The GFS guides how ARENA provides financial assistance to renewable energy activities while the IP outlines ARENA's investment focus areas and investment priorities. ARENA assesses all funding proposals for best fit with the investment focus areas to determine which will be financially supported.

ARENA's programme structure has been simplified to make it easier to apply for funding and to assess applications, while also giving ARENA the flexibility to respond to any changing market conditions.

ARENA now has two funding programmes:

- Research and Development Programme (competitive rounds only)
- Advancing Renewables Programme (continually open for applications, with occasional competitive rounds)

This means that from 14 July 2015, ARENA's Emerging Renewables Programme (ERP) and the Accelerated Step Change Initiative (ASCI) will be closed to new applications. There will be no change to the Research and Development Programme.

The new Advancing Renewables Programme (ARP) will be open for applications from 1 August 2015.

ARENA may also launch competitive funding rounds from time to time within the ARP. These will be identified in the IP or through funding announcements on the ARENA website, and will be communicated to the market in advance.

Our records show you have started, but not finalised, an application under ERP or ASCI using ARENANet. If you still wish to apply for funding under this programme, please complete and submit your application before 31 October 2015. Any unfinalised applications after this date, will be automatically removed from ARENANet.

Alternatively, you may prefer to start a new application under the new streamlined and simplified ARP from 1 August 2015. Unfortunately ARENA is unable to migrate data within existing applications across to the new ARP.

All projects operating under existing ARENA funding agreements will be unchanged.

For further information about the new programmes please refer to www.arena.gov.au or contact proposals@arena.gov.au

Kind regards,
