My name is Richard McLEAN and I am making this statement in relation to an assault that happened at the Dancing Dog cafe in Footscray.

At approximately 6:15 pm^{on 25/4/17} I arrived at the Dancing Dog, I saw a few of the locals that are often at the bar. I saw a young vietnamese man sitting in the front smoking area. There were a bunch of random people sitting in the smoking area near the vietnamese local.

I ordered a pint of beer from Jo and she told me that the guys out the front looked like trouble. I sat at the bar and drank my pint. As soon as I finished my pint I walked out the front and heard a commotion, I kept walking and then heard fist on flesh. I was worried for the quiet local Vietnamese guy.

Time out	Their friends was blocking the way so no one could intervene. The guy blocking the way was big, 6ft, 110-120kg, white T-shirt, jeans. Caucasian, short blonde hair, clean shaven. I tried to walk past him to help out.										
Time in	The guy in the white T-shirt pushed me in the chest. I swung a punch which hit him in the face. He punched me 2-3 times in the face. The scuffle spilt out onto the foot path and ended up around the side of the pub, near Raleigh st.										
Reason for Entry	I ended up on the ground and the big guys mates started kicking and stomping on me. I can't really give much more detail, it all happened so quick and I just wanted to protect myself. I managed to stand up and the big guy in the white T-shirt said "you're a real fucking hero aren't you". He then punched me in the mouth with his left fist. My lip instantly split and blood went everywhere. I fell to the ground again and last saw them all running around the corner and north on Albert st towards Coles.
