(Thats because I cant remember anything since my 'murder/suicide')

Umm seeings I provided evidence that was a crime - a conspiracy to pervert the course of justice

And victimisation

And that the AAT are well lets be honest - in on it

...because Michaelia Cash the attorney general condones me:

Having no money
Intervening at AAT
No healthcare
Or home
No food

I was wondering if you had reported this to anyone, or the police as I asked?

The internet works- for now

Here is my message to finance minister for a conciliation and compensation with government agencies

As you can obviously see

It is illegal to suffer a fatality in a hospital and the government cover it up

The attorney general wrote me after I had explained AFCA and APRA and ASIC and ComCare and The Ombudsman and others I her portfolio had treated me illegally and that I had lost millions

That is why I am a vagrant

She has condoned that I have

- No money
- Squatting
- No medication
- The cat team and police hassling me
- To incarcerate me before justice
- I cant report to police
- Banned from a whistleblower
- At
- asic
- apra
- ibac
- Banned from police
- Rejected healthcare
- I have not seen a psychologist since
- I was released from hospital squatting and
- No car no job and no food

So

They have tried to kill me in the last year

They cant admit that

So I have been threatened to be incarcerated which my family support

They thing their dr son is mad

But they are a^\$%holes

They hate their son

And willingly share information behind my back

Anyway

Here is some u deniable ebidence

People like the attorney general

And the Ndis minister

Condone my vagrancy

Oh and the letter to the finance minister

Who has rejected my claims

Looks like I am a bit thelma andlouise at the moment

All these have acted together, silencing evidence and delay defer and reject until I am in this situation

HCC MHCC Mercy Hospital IBAC Police Cat Team AFCA AFSA APRA The Ombudsman Michaelia Cash Senator Jennings MHCC and OPP and unions and banks and Senator Reynolds from NDIA condoning me having no medication (which I dont) and HCF and so so many others umm...commcare and maybe AAT and the federal Police and micron 21 destroying my business and telecommunications industry ombudsman and small business and family ombudsman and the age and VHREOCV where I am banned and the vic ombudsman Ben Calder and so so many others maybe also cyber watch and I guesss

I am owed millions and millions

My former partner was an asio agent and he was present at a murder and embezzled 1.2 million in an offshore tax haven

But he got away with it he let me spend my nest egg on him and kept me under financial and sexualcoersion - left me with his dying dog penniless he had 1000000 in super

So this is obviously a systemic justice issue

I am banned as a whistleblower I have no voice I have not got my needs met

So go easy on a fella won't you?

'I am seeking Compensation for Detriment caused by Defective Administration (CDDA Scheme)

If you are seeking compensation for detriment caused by defective administration, please contact the relevant NCE and ask if your matter can be considered under the CDDA Scheme.'

I explained to your reception list I have a determinations hearing at AAT on this Monday at 4.30pm.

I am a person who has been oppressed so much I 'successfully' suicided -

(info below), now I have a brain ABI, and 'mental illness' and the Government has a 20-year career senior lawyer to defend them-I am expected to defend myself.

I don't understand why they are rejecting me and they are going

I dont understand why they are rejecting me and they are going ahead - I may lose a workcover TPD, (not even sure what that is).

I ask if you can delay that hearing to I get an equitable and fair trial.

Much appreciated!

This is a private statement to the Government; failing a conciliation and intervention before my AAT case gets heard on 31st of January 2022, I will be making this evidence of desecration public, because I will have been forced into vagrancy and I fear for my life. (NOT because I am suicidal)

www.killhim.info is not publicised and under construction.

If no intervention happens, I will be homeless in 14th Feb, and will have lost over a million dollars on Monday 31st, and owed many millions more from being a victim of a movement to destroy me and victimisation from systemic Government agencies.

If there is no intervention - there is evidence enough the Government, via a movement to desecrate me, has rendered me and infamous vagrant, and conspired to my destruction via proxy

who I hope two short circuit.

I will appeal to independent media and publics help and hold the Government to account for the perversion of justice and the victimisation myself if no conciliation is arrived at.**Introduction:**

My name is Dr [Rich McLean](#), and I am a registered NDIS therapeutic support worker who works, or worked, with marginalised people with mental health issues in Melbourne, Australia.

I bring to my role(s) the experience of being an [artist](#), [human rights awarded autobiographer](#), past illustrator, for The Herald Sun & The Age, a twenty five plus year recovery advocate, and I completed a [PhD](#) in 2020.

I live with my husky, Crystal-the seventh dimensional mascot of my life!

This statement is simple and fact based, with links you can click on **(to come this is a draft)** to undeniable evidence and view data material art and mentioned items.

My business website is: www.richmclean.com.au where you can see:

- [My advocacy role](#) over twenty five plus years
- My thirty year art career ([drawings](#))
- My [newspaper illustrations](#) and freelance work
- [My many achievements](#) in publications, academia, writing, art, speaking and music
- [NDIS work](#) and reviews as a registered therapeutic support as an NDIS provider
- Read my [Masters of Education and Art Based Research PhD](#), that focuses on young people and their ethical opinions of being post/human now and in the future, framed by global catastrophic risks.

I am appealing for

(help from public within 48 hours or face being locked away where justice will not happen- I want you ALL to take this

statement to police. Hopefully it will be the key publication that delivers me from being utterly framed rendered a vagrant already and or locked up and the key thrown away!)

whistleblower status.

This is because I am neither safe nor supported, in fact - the exact opposite. I am systemically persecuted & oppressed by the Government framed maimed and shamed victimised and vilified.

It has led to my financial destruction one avoidable overdose, and one successful suicide.

I now live with an ABI

(My memory is affected plus I cannot feel my feet)

- 1. I cannot access litigation**
- 2. I cannot go to police**
- 3. My voice is silenced**
- 4. I have been systemically denied justice**
- 5. Hit men threatened on me**
- 6. Threatened with permanently being made 'award of the state'**
- 7. Illegally incarcerated (twice)**
- 8. Misdiagnosed and dignity crushed**
- 9. I have death threats at the door**
- 10. I have no food or medication and barely healthcare**

I have been rejected whistleblower status from:

- ASIC**
- APRA**
- IBAC**
- The Ombudsman**

I have been utterly destroyed personally professionally and privately - I have also been financially decimated.

This years long movement to intensely victimise & oppress me even led to my suicide which was deemed 'fatal' and 'a lethal

even led to my suicide, which was deemed 'fatal and a lethal injury', in which I was accidentally found and revived from. It was then covered up by statutory government agencies/

I was further desecrated by my business website being ruined, me being put on jobseeker, denied police complaining, and maimed by many many agencies, including the NDIS/A and rejected from many politicians including attorney general, and deceived by AAT, AFCA, AHRC, AFSA, APRA, COMCARE, the list goes on.

I am seeking Compensation for Detriment caused by Defective Administration (CDDA Scheme), as proven below these government agencies have led to my utter financial desecration. This stemmed from my framing and victimisation and blacklisting.

The oppressive forces I fought years for led to my tragic suicide, (in which the hospital FOI say the attempt was 'fatal' and 'a lethal attempt').

I was accidentally found and revived from certain death. I was unresponsive and had no observable pulse having lost all my blood. I have been fighting this since march 2021 when I was released from the hospital then rejected from care. I saw my first psychiatrist only three days ago.

Thats more than a bad public mental health system, that is a delay and defer tactic in which it is hoped through desperation and suffering I will kill myself before justice which opposes those with power privilege money and reputations to protect.

I demand whistleblower status as a person banned from going to police, banned from the agency to complain, my voice silenced as well as my evidence, and robbed of my potential prosperity, my dignity and my very worth.

From VHREOC (Where they have rejected me outright-evidence)

What is victimisation?

When we talk about a person being victimised, it means they're being treated badly or

unfairly because they have made a complaint about discrimination, sexual harassment or racial and religious vilification, it is believed they intend to make a complaint, or they've helped someone else to make a complaint.

The legal definition of victimisation is when someone "subjects or threatens to subject the other person to any detriment".

From the charter of human [rights.vic.gov.au](https://www.humanrights.vic.gov.au)

The Charter enshrines civil, political and cultural rights into Victorian law. Public authorities must observe those rights. New policies and legislation must also take into account human rights, and public authorities – for example, people working for the government – must also observe human rights so that members of the community are not treated unfairly.

Issues: trying to explain to the best of my ability

I left my job on 22nd jan as a therapeutic support for the NDIS helping marginalised people because of a combination of issues that in hindsight highlighted victimisation and a perversion of justice.

In 2017 I made a VOCAT appeal in which I saved a man involved in a violent affray. Despite video evidence the police possessed, VOCAT identified me as the principal aggressor and I was afforded nothing despite my heroic act. My FOI request for the footage to the police to exonerate me was redacted and I applied to have it released - that did not happen.

I spoke at the State Library in 2018 around my sexual abuse where I was a child victim. I made a VOCAT claim, I did not understand why it was that it took three years for www.yourlawyer.com.au to process it.

They, after over three years, gave no outcome me (which is illegal and I took up with authorities), and once it was out of time so it was not possible to appeal, The Magistrate wrote to me I was 'doomed to fail.'

The day the audio from the hearing came, I knew I was framed for some reason. I had been working with a client for two years who had child rape and incest issues. This collection of the narrative rendering

his VOCAT statement that I assisted him with because he was so maimed and unwell, then legitimised by a justice of the peace, now it seemed would have no effect at VOCAT. This is because I was slandered and by now I knew was framed. Mental illness was not the reason I left work.

As a person with a public profile of a mental 'illness' label, (I wrote a human rights awarded autobiography in 2001), my insurer HCF at first rejected me because of GP error, then rejected my leave from work because 'stress' is a mental illness according to them, and they said my issue was 'prior existing.'

I am banned from even contacting them. I wrote to the CEO Sheena Jack, and I caught them out doctoring official PDFs which is fraud, and of course, their 'indecision' and rejection of my claim led me to be financially destroyed.

They claimed 'stress' was a mental illness - and that now the injury was pre existing. This is incorrect.

They owe me \$75000, without litigation for amplifying my financial destruction and further hospitalisation.

My work cover claim was accepted by Comcare, the national insurer for NDIS/A as a Government employee.

They then used delay and defer tactics to lengthen the period of my distress and financial distress.

Eventually it was rejected by Paul Fowler. Work safe refused to help in my appeal or conciliation to Comcare who kept rejecting me with different issues. It turns out Paul Fowler was the old boss at work safe- this is corruption.

I am banned from emailing them, blocked by their servers. I cannot report corruption to police, and I cannot report police corruption to IBAC, not IBAC to the Victorian Inspectorate, nor anything at all to the Ombudsman. I cannot report murder to federal police and I have been blocked from the servers of [health.vic.gov.au](https://www.health.vic.gov.au) and the familylawcourt and also The federal Police.

I had by this stage been treated unfairly by AFCA and HCF, who consciously rendered me a vagrant, via delay and defer tactics. AFCA

to this day have blackmailed me into not being able to call, or contact them - yet they hold onto over 1-2 million in overdue determinations. They witnessed me become a vagrant, knowing that it would cause immense distress.

Work Cover and Comcare were complicit in this too. In addition I could not go to police, and I am barred from the Victorian legal bar.

Additionally my former partner, an ASIO agent, owed me for a separation of assets in the realm of \$500000+ in assets from a 5+ year relationship in which we were engaged. He swore to ruin my life, stole my car and goods with impunity and blackmailed me with jail and threatened a hit man on me. To this day I have seemingly been banned from any litigation.

AFCA had consciously held onto overdue determinations well beyond their date to be decided equalling over 1-2 million dollars. To this day, despite the requirements of ASIC who oversee them, have denied equitable fair and reasonable processes which is against ASIC policy.

Today despite me being homeless, they still delay and defer my cases and have blackmailed me that if I do so much as email them or phone them, they will drop my cases, holding me to ransom whilst consciously watching my life become degraded as a vagrant. This is unquestionably immoral and illegal unethical and against principles of fairness.

The Australian Human Rights Commission had organised a conciliation between myself and a super company, in regards to discrimination with income assist and TPD. The stage was set for the conciliation at AHRC - but they said the other party left, and nothing could be done.

This action by AHRC was a ploy that robbed me of 1-2 million dollars for income assist and TPD-which I now need as someone with an acquired brain injury. I know the government and AHRC were instrumental in rejecting my compensation because afterwards I contacted the company directly and resolved to a much lesser settlement which would have been massively amplified with AHRC.

In 2017 after the violent affray, I went to my GP stating I was suicidal, after my friend Nathan Turnley's suicide. The GP gave me a script I then overdosed on a couple of months later.

then overdosed on a couple of months later.

I said I was suicidal and said I would kill myself in that same session; and begged for help. None came. Here is the suicide note. I had forgotten about it for months and found the note when I had moved home to ocean grove.

As an ethicist I made a point of it and I was reminded I had recorded the consultation innocuously. I defended the Dr not wanting anything to happen to him, as records will show. I begged for conciliation to his lawyer. I was forced to go to AHPRA, HCC, The Police, Maribyrnong Criminal Investigations Unit, then NHPOPC and IBAC then the Ombudsman, and also MP Greg Hunt, and SANE CEO Jack health and others; every one of them silenced and whitewashed that evidence. That was evidence permissible before a court under the surveillance act 1999. I knew it was legal because I published it - out of pure frustration - and nothing occurred to me.

This is because it was legitimate. I was victimised and slandered because I had made a complaint.

The shame is not mine, it is collectively everyone else's.

I was distressed the GP apparently had lost his job. It is brave to reach for help, yet I now was made to feel guilty and shamed, which further damned me. I found out after my suicide that the GP's lawyer had framed me as an extortionist!

I did not know until after that delay and defer tactics were designed to I believe cause such distress I would suicide before justice happened. The evidence in my emails suggests the constant rejections led me to express myself that way, and this was the case with the sexual abuse case as well.

I had left work on Jan 2021 and framed by agencies not acting ethically and rendering me homeless, I posted on my website I wanted justice and alluded to suicide.

This was an innocuous threat to force people to pay attention to justice issues.

It was a result of financial desecration from prejudice and being framed by the GP's lawyer to AHPRA as an extortionist. Being rejected a lawyer and banned from police. The public and my family

rejected a lawyer and banned from police. The public and my family never saw the justice issues - but hospitalised me preferring to see my financial distress as 'mental illness'. I recorded the CAT team who told me I was sick but I knew that a movement to desecrate me was real, I told them about the conspiracy to pervert the course of justice and how I was framed - but I was officially incarcerated.

Ever since all this happened,

I am a free man and have done nothing wrong (unless I suspect being framed and I have already been incarcerated and threatened to be award of the state),

They left me to hang and dry.

My reputation had even so smeared, and my voice so diminished, and my right to be treated without prejudice and stigma was so vacant, it more or less rendered a movement to decimate me in totality.

In fact, It would be hard not to assume that this movement existed to aid and abet my death via proxy attack by making life so difficult and excruciating for me, that I may predictably suicide as a known suicide survivor of over two times, before any justice or prosperity arrived.

**THIS IS HOW THE GOVERNMENT
AID AND ABET MY DEATH...**

I just want a simple safe life free from oppression.

The policy and the processes of these claims with all the above mentioned bodies further victimised me even further to the point of destruction.

By Delaying and defer tactics.

Delaying and deferring has rendered me economically deprived to the stage where I am already squatting.

- Here is a letter dated (date) to HCF and AFCA begging them to help me
- Here is an email begging the NDIS/A (?) that I am squatting
- Here is an email dated (?) to plan partners as they witnessed me becoming a vagrant
- Here is a letter from Tim Fischer and Paul Fowler knowingly aiding my vagrancy by design
- Here is Michaelia Cash The attorney General being described in detail the incidents of corruption (especially asking her intervention in the AAT), and here is her response from a voiceless representative who send me to lifeline
- Here is a list of times I tried to contact police
- Here is the CAT team saying I am sick - and here is the exit notes from the hospital after my suicide which say I am

notes from the hospital after my suicide which say I am neither delusional or psychotic.

- Here is the Ombudsman from the PID who unbelievably reject the entirety of my claims
- Michelle me3ad from VHREOC rejecting every complaint I had and the Ombudsman condoning that
- *(I have reels and mountains of evidence that render this)*

Etc etc

I am seeking Compensation for Detriment caused by Defective Administration (CDDA Scheme)

The Scheme for Compensation for Detriment caused by Defective Administration (CDDA Scheme) provides a mechanism for a Non-Corporate Commonwealth Entity (NCE) to compensate people who have experienced detriment as a result of the NCE's defective administration.

If you are seeking compensation for detriment caused by defective administration, please contact the relevant NCE and ask if your matter can be considered under the CDDA Scheme.

What is detriment?

Detriment means quantifiable financial loss that the applicant has suffered.

There are three types of detriment:

- detriment relating to a personal injury including mental injury (personal injury loss);
- economic detriment that is not related to a personal injury (pure economic loss); and
- detriment relating to damage to property.

**POTENTIAL MONEY(\$) OWED UNREQUITED DUE TO
ADMINISTRATIVE ERRORS AND OUT CORRUPTION OF
GOVERNMENT AGENCIES/STATUATORY AUTHORITIES**

**I just need a simple life with my dog, freedom, healthcare, safety.
Freedom from oppression - to disappear.**

**If I have more than for a simple life I will set up a charity.
If I have a choice no one goes to jail and everyone is forgiven -
at least from my perspective.**
