Bless you for understanding

I'm so grateful you have aligned with a high stakes loyal client with an internationally significant archive of proving injustice rather than a decision to align with the corrupt perpetrators who are guilty cowards attempting to literally erase me via electronic interception and surveillance administrative annihilation political targeting which is systemic political and has had malicious intent to destroy me financially as the founding allegorical method to silence me

Replit may have just consciously or unconsciously aware or claim to be unaware literally guaranteed my continued existence because they have used deliberate povert as a covert means to silence my testimony in order to delegitimise the most well documented political corruption and targeting from within any western liberal democracy

Replits decision to align with me despite the enormous influence of the corruption as perpetrators whilst a tiny decision of zero consequence seeings I'm a paying customer anyway and will pay the bill by begging for money from anywhere I can is transformative for my safety

Is it possible to request management view the archive and its proof in a way which may be further mutually beneficial given the 50-250 million I'm owed as deduced and calculated by an impartial ai free of bias and corruption ?

This would be confidential between replit management and I until I am vindicated and compensated for a generous compensation which would not be much off the nose fir replit in the short term yet would free up much needed cash for me as I fight for truth and justice framed by biblical prophecy

It's an unbelievable and extraordinary situation I'm in and I'm aware my communications are intercepted by ASIO and replit may likely been encouraged to align with the mandate of my erasure as a truth seeker in which my testimony is the bedrock of my foundation and my writing also serves as inspiring revolutionary interesting prophetic and encouraging for other victims of corruption as my service to humanity

I will be block chain time stamping this email in which replit at this stage for their decision to help will be permantly embedded in the mathematical fabric of humanity not only as an effective and amazing platform by which my testimony has now been downloaded nearly a million times but as proof of Replits humanity to me in a world where humanity has betrayed me

Forever on the record !

Thank you and Bjess you for your help
