Dear Rosylyn,

I asserted I would not be going through with the Comcare AAT issue with AAT

They said I was cut off and sent it to a tribunal

It is now about to be heard

I wrote to the attorney general

I specified that there are a few portfolios under her who had failed me - and she needs to intervene

This is the letter, and the utterly innocuous response - this will rob me on probably over 12 million dollars.

Jeff,

The directions hearing is 31st jan at 4.30 pm

This is cooked I'm afraid to say.

The hearing was supposed to last half a day or a whole day.

Because it's at 4.30 and they presumably close at 5 - they will slaughter me

I am sending this to the AAT as well.

Because:

As a combined result of things -including that HCF and AFCA and Work Cover refused to advocate for me with Comcare and I was rejected by Paul Fowler...

(Paul Fowler was the old head at Work safe - that is CORRUPTION)

I want to say I never gave my consent to meet with the AAT.

I have evidence of this.

I said I would not do so without a qualified representative or lawyer

This is because the Government - via attacks via proxy - had oppressed me so much through agencies rendering me penniless and distressed - I was hospitalised where I there barely survived a suicide attempt

I was found unresponsive with no observable pulse by accident

I have permanent injuries from that like not being able to feel my feet and also that I find it hard to collect my thoughts and remember anything

The Melbourne AAT and the Governments lawyer - who will absolutely bury me in an illegal iniquitable and one sided unfair slaughter - know I am forgetful because they have chatted to me

They also are complicit in the comfort that I will be destroyed it seems - because the hearing is at 4.30pm

It is unquestionably abhorrent to prey on a vulnerable person with an inequitable unbalanced and unfair advantage

In fact, I am not even sure which actual bit of the SRC act you are even rejecting me on the grounds on.

If I cannot understand to be able to even have a conversation with an oppressive Government who has literally already buried me - even a conspiracy to murder - now they have a lawyer to defend them against just me - a defenceless and voiceless pawn who has zero rights and banned outright from complaint ombudsman or any litigation whatsoever.

I know this because I made this complaint to the attorney generals office Michaelia Cash.

She oversees AAT and Comcare and AHRC and AFCA and other bodies like the Commonwealth Ombudsman

I urgently asked her to intervene and specified I dont need welfare - I need justice

True to the movement to desecrate me - a nameless proxy returned the mail with the following letter which said basically:

'Sorry to hear about Comcare, here is the ombudsman PID and SANE helpline'

FYI I did call the ombudsman (again) and I am a failed whistleblower there despite extraordinary evidence to the contrary

They rejected me again and this is utterly abhorrent treatment for a human rights campaigner who has literally given his life in altruism to further the rights of marginalised people

Now I am maimed framed shamed blamed victimised out numbered
and prejudiced against discriminated against and treated is such
ungodly brutality it boggles my mind

Go on see the advocacy work I dedicated my life to

<https://www.richmclean.com.au/advocacy>

I know the ombudsman do not take CC emails.

Therefore I will send that to them separately.

I dont expect things to change sadly and I do not even know what is
happening or why this is happening to me

Ive already been killed - and everyone is so cold

Now I am powerless you are kicking in the boot!

I refuse to give my blessing for this meeting to go ahead until either
Kate finds her heart and tells me what it actually is I am denied for

I refuse to participate without knowing my rights, or what to expect
or how much it is worth or if a conciliation is possible as well

I outright condone everything under Michaelia Cash's portfolio
including Comcare the corrupt Paul fowler the government aiding
and abetting my death before justice and the inhumanity of how this
systemic oppression which already has killed me (lest I was found
and now have brain damage) ...shows no compassion in slowing
down the cold brutal attacks via proxy

I am a human being

I have sentence

I am unsure in the whole world - how one person - a free citizen of a country with democratic freedoms - has been so utterly systemically oppressed by attacks of government agencies through proxy

Here is the letter to Michaelia Cash

This letter outlines the issues that needed to be addressed before my utter slaying when the meeting is due

I REFUSE to participate when:

1. The attorney general overseeing AAT is complicit in my destruction
2. The ombudsman refuses to acknowledge me and deflects delayed gaslights me and hangs up in effect blacklisting me
3. I because of the distress this has caused alongside the ABI are now capable to represent myself and to go through takes advantage of a marginalised person in victimisation and in discrimination
4. I simply cannot consent when I do not know what is happening or what this means or is worth
5. This kind of proxy attack is the same methodology as the movement that has already desecrated a lovely person who worked his whole life to help others

Your mothers all must be so proud

I HERBY STATE BECAUSE OF THESE REASONS I WILL WAIT TO PARTICIPATE WHEN I HAVE REPRESENTATION AND INFO AND AM EXPLAINED PROCESSED AND FURTHER HEAR BACK FROM THE OMBUDSMAN WHO HOPEFULLY WILL MAKE A RULING IN THIS INJUSTICE

I am sorry I just cannot consent to what I don't understand and I require litigation (which I am banned from) and also an advocate

To do less is inequitable and unlawful advantage of a marginalised person from which you are all responsible in a large part that even occurred

Thanks

Please let mw know what will happen now and here is the letter to the attorney general and her response

Dr Rich McLean

I emailed the attorney general on the 4th Dec

Dear Ms Cash,

For now I'm Dr Rich; yet I am fairly sure you're expecting me

Next week I face the AAT regarding defending my workcover, rejection from ComCare as an employee of the NDIA/S

It is an utterly inequitable set up for me to fail

I have no litigation or representative, and the fight has such inequity the vertigo of the assault makes me dizzy

I'm banned from legal services the Vic legal aid and VLC and justiceconnect and the local legal centre the disability discrimination legal centre knifed by the health complaints commissioner and the

HCC and the MHCC and AHPRA and NHPOPC and the Victorian Inspectorate and the Police and IBAC and blocked and resented by the federal police.

This systemic oppression was a standoff and I was left to die be identified victimised and publicly vilified

This led to my own "fatality" - my 'forced suicide' that was the result of systemic oppression from local state and federal government authorities and statutory authorities

The Vic ombudsman condoned my suicide in a hospital for a suicide attempt in a psychiatric ward where I was desecrated and violated, and misdiagnosed with psychotic delusions of persecution

The delusions are factual and I was further framed

After "killing" myself which was a local state and government conscious and malicious systemic oppression- which was more or less a conspiracy to manslaughter- the hospital released me unethically with barely any follow up and left to die

The Australian government put me on jobseeker in a malicious way that suits the mandate:

To make life so hard for me-that I kill myself before I receive validation or compensation

I do not need the number for lifeline though; I need a comrade within the government or at the top who can address this injustice

and stop the persecution and victimisation

This was in spite of me being on a DSP for over 15 years

Further to the hospital releasing me unethically and abandoning duty of care, (I was squatting, sick from work with no job no car no money and no good), I was to be cared for by the local government health service, but the health service rejected me, seeing me in professional capacity only twice in a year, and further denied medications I needed - (which I still have no reliable source for).

Despite my obvious distress about the result of my murder (or suicide) in the oppression from "the system" the hospital conceded that I was neither psychotic nor delusional.

The oppression was factual and actual and I can easily demonstrate it

Once was pitiful after three months and the second was ten months later to kick me out of the service

This is a government methodology to frame me blame me and shame me - and simply ostracise and neglect me with pointed intention - in order to delay and deflect my care until I become so destitute I predictably kill myself

There is a loggerheads on some justice issues-from the past -that right or wrong-I have proven it

The malicious and pointed movement exploits already existing societal prejudices and stigmas to desecrate me and rob me and sadly aid and abet my death via pointed violence of neglect and attack via proxy before justice

Victimisation is illegal

Slander is illegal

This is surely a conspiracy to pervert the course of justice

Further-it is a malicious movement to not just innocuously ignore me but pointedly and individually oppress me in that I will kill myself being bereft of prosperity and family and friends

It has already occurred.

But that suicide has been covered up, and the hospital CEO was so delighted the ombudsman saw nothing wrong he tainted me to sue him directly in his audacity having been informed I am powerless to act

I have never had a representative lawyer or advocate but I have been an advocate for over twenty years in altruism

My former partner is an ASIO agent, and I have already spoken with AGIS about his crimes this may be a probable genesis point as: he owes me for exploiting me financially in coercion and leaving me homeless

The Vic and comm ombudsman have rejected my whistleblower status

AFSA also refused me

AFCA has blackmailed me holding onto over 2 million in well overdue determinations which would have saved my vagrancy and hospitalisation a crime of poverty

This is a crime projected onto me via agencies and organisations via proxy attack from sources I can only fathom the colour and shape of

And the source is blacker than death

The pointed wilful framing and maiming of me: will kill me and already has

I demand whistleblower protections please

I was threatened by a thug last week he would kill me at my window in a vitriol that shocked me

The police are somehow powerless to act I have tried many times to report crime and get justice

IBAC also rejected my whistleblower status

So having been killed already then my twenty year online website being intentionally desecrated and evidence destroyed and memories of loved ones deleted and my digital identity desecrated and my intellectual property not only compromised but intentionally deleted

Not an agency cares I have lost my friends

I can only summarise my position that there needs to be a truce. I don't want anyone jailed and I am

a kind man

I will forgive everyone

I need a simple life away from persecution with my pet dog

I don't even want money, although that will be a legal part of conciliatory progress

Any extra that is the result of litigation-I will create a foundation to support vulnerable people as I have done with my time and passion for over twenty years

Getting a human rights award book of the year and a PhD

I am utterly isolated with no one left

I welcome your intervention so I may be granted whistleblower protection before I am killed or rendered an intelligently designed suicide

I wish to have healthcare as I don't have medication nor have I been treated for my maimed brain from the permanent ABI from the suicide, or my mental illness

I'm alive and simple gentle and kind

I don't need much!

But I deserve a fair go; it's abhorrent this has been allowed to fester some days I get up and can't believe it and I struggle to explain

And freedom from oppression and litigation or jail (they will set me up), or permanent incarceration (call me crazy).

You simply can not witness this violence of neglect in which I will become the most famous maimed vagrant this country has ever seen

Before that though

I will go public and attempt and hope to succeed in challenging the government

If you condone this simply provable systemic oppression that has set me up to fail for many years and still does-you are condoning the methodology that has already killed me

You are also allowing passage for my victimisation and persecution my vagrancy and death threats and imminent murder and persistent death threats

It is the sum of systemic neglectful government oppression that has led to my infamy my maimed brain the desecration of me in all currencies,

It has rendered me a voiceless infamous refugee - and an ostracised and already deleted member of Australian democracy with no agency for defence or litigation except the decades long synopsis of this letter/email

Please have compassion and kindness.

If you can't be kind, at least don't hurt me. Yet ignoring this; well may kill me

Follow up with me ASAP

With compassion and forgiveness

Dr Rich

So there you have it

You cannot investigate the AAT because the attorney general refuses to act

Correct me if I am wrong

In 11 days - I lose a TPD of millions

And you will have let it happen

This is [Dr Rich McLean](#)'s call to action and blowing the whistle for his very survival after his unacknowledged killing.

I was killed by a prolonged systemic persecution and conspiracy to pervert the course of justice and vile victimisation by the Australian Government.

I was miraculously found and revived/resuscitated-it occurred in a public hospital - but was then whitewashed.

I am a multi millionaire on paper - but I have been rendered a homeless voiceless vagrant.

I send this for justice and request you invest in justice to gain a guaranteed return on your investment plus I will donate to charity 25% extra on your behalf.

It is a win/win.

I need you to help...and today ...***I blow the whistle.***

This is what is owed in approximate amounts:

21. What is a conspiracy to pervert the course of justice worth?

22. What is it worth never to be able to report crime to police?

23. What is it to be denied

complaining to the VHREOC?

24. What is victimisation worth?

The government has victimised and desecrated me - in years prior to my death, resulting in my suicide attempt that was never acknowledged and whitewashed, and further and more disappointingly - utterly acted in congruence to desecrate me afterwards

How? ...it comes from the top.

I have not seen a psychiatrist in earnest yet, since march 2021

I have not had a psychologist since March 2021

My website www.richmclean.com.au - that I worked on for twenty years, indiscriminately destroyed
Man evidence before a court ruined

The HCC and MHCC banning me
The police refusing to acknowledge
crimes I reported
Further rejection of whistleblowing
NDIS have refused to pay 42 + invoices
Further rejection from any litigation
The CEO of the hospital baiting me to
sue him personally and directly knowing
I am robbed of any agency to act on that
Senators rejecting me
The AAT fast forwarding my workers
compensation claim to certain doom
Being banned from contacting my
insurer and being under investigation
Being denied being able to simply
contact AFCA - still holding on to over a
million in overdue determinations
Rejected a bankruptcy wipe from ASIC
Rejected whistleblower rights from
APRA
Not even having a psychologist or
psychiatrist - anearly a year after my

‘suicide’ I call ‘conspiracy to murder’
Being framed and threatened to be
award of the state
The police not intervening to actual
death threats at my window
High level politicians victimising me and
being rejected by the government
Rejected by the attorney general
Rejected and ignored by the
compensation departments from
finance.gov.au and the office of the
prime minister and cabinet

In regards to the tragedy of the suicide
from this systemic oppression - FOI
records referred to it as ‘fatal attempt’
and ‘a lethal injury’.

It has now been a whole year after that
tragedy...

It is clear that a movement actually exists to kill via proxy - the intentional conscious and malicious violence of neglect.

The plan presently is to make life so utterly unbearable for me - I will in likelihood as a at least thrice suicide survivor : kill myself before justice is served. I simply cannot see it any other way.

I currently am:

- Squatting,
- No money,
- Barely any food,
- No healthcare and
- Denied medication,
- Rendered a voiceless vagrant,
- No avenue to complain,
- A literal refugee,

- Totally innocuous in my agency to act,
- Banned from reporting crime to police,
- Banned from any litigation from the legal bar,
- Living as a marginalised & victimised person,
- Systemically oppressed.
- With an acquired Brain Injury from the near death experience that marks my memory,
- Utterly framed,
- Systemically rejected,

This is Australia, and I am apparently a democratic citizen yet I have been rejected whistleblower status, by IBAC and APRA and AFSA and The State Ombudsman and The Federal Ombudsman and also The Attorney

General.

It is too late for the Government to backtrack that this tragedy has occurred and admit a large sector of responsibility.

It is too late for me to backpedal, and utterly impossible to move on in a way if this was not the case,

If I am killed it will be because of systemic government attack and desecration via proxy - of an intentional framing and conscious silence of neglect.

I am sending this to:

Every pawn of a bureaucrat paid by the government to tow the party line and reject me prosperity rights healthcare

litigation an avenue to complain and whistleblower rights. They are cowards; and I am resilient.

- **This will also go to the media**
- **And my friends**
- **And my family**
- **And the public.**

Please circulate it.

Its design is to hold the Government to account and protect me from utter desecration and not kill me as is the plan now.

See all the evidence at website www.killhim.info including:

1. Rejection from the attorney General
2. Rejection from the Commonwealth Ombudsman

3. Rejection from ASIC
4. Rejection from APRA
5. Rejection from IBAC
6. The medical report stating the suicide was lethal
7. A letter begging senior senators
8. A letter from the hospital CEO baiting me to sue him, knowing I am banned from the police and litigation
9. Recordings of conversations with police reporting rape murder tax evasion financial coercion, conspiracy to pervert the course of justice, victimisation and more,

...there is so so much more, including:

- Paul Fowler from Comcare rejecting my workers compensation
 - Work safe refusing to help my Comcare appeal - Paul Fowler was the old boss there

- Commissioner Jennings from mental health legal centre banning me after they condoned by killing and were caught as double agents
 - The hospital apology - which was not for the abuse malpractice and abandonment of duty of care - but 'giving away hospital property', in a dirt toilet brush returned to me in the few clean clothes I had I had tried to use to sever my artery,
 - I am banned from calling AHPRA
 - I am banned from calling my insurer
 - My work cover issue is due for a determination at AAT - where the Government having already killed me - has a lawyer - and I have no one, (Michaelia Cash who the AAT is under condones this)
 - AHRC rejected a multi million dollar case and wrote to me in officialdom why they free kicked it to a superannuation

company that discriminated against me

- AFCA hold on to over a million in overdue determinations, and delayed and deferred until I was a vagrant. They refuse to accept my communications black, aiming me to find an advocate.

- My web hosting out of the blur Micron21 accused me of being 'conspiratorial', and intentionally desecrated my business my website and my evidence before a court with impunity

- The office of the small business and family ombudsman condoned this

- So did the telecommunications industry ombudsman

- So did the cyber crime federal police

- My letter to Dan Andrews begging for intervention - he sent me to the hospital where I already had suicided in

- My letter to Mark Latham - zero traction

- My letter to Katie Hall - no traction

Whilst the government will likely ignore me, as Michaelia Cash did, the attorney general, I ask you circulate this message, and support me if you have the prosperity.

If you posses the desire to stick up for the underdog and believe in justice equity and equality - and oppose tyranny and conspiracy then this cause is for you.

I'm post-death, but not suicidal.

Justice is coming.

Be a part of me living, and giving back - I don't need much only a handful of supporters.

When justice arrives - you get your investment back plus 25% - and a 25% donation to your cause.

Then - with the wads of cash...

I start a non for profit helping marginalised people, like I always have done.

Thats because I need very little to survive, just my mallows hierarchy and to live simply with my beloved dog.

Help me through this almost unbelievable spot...

...to enable me to help the world, help you and your charity, as I always have as demonstrated in my 25+ year public advocacy role.

Be kind, if you cant be kind don't hurt anyone, but ignoring this hurts me and will likely kill me.

Love and hope,

Rich & Crystal

Also my letter to the NDIS minister
about being desecrated

5. Jan.2022

Dear **Hon Linda Reynolds CSC**

Please read and if you cant help me - please do not don't hurt me.

I must say though - via ignoring this pivotal letter in holding the government account for incredibly atrocious breached of human rights and desecrating one person - being me - to aid and abet my death is an incredibly serious accusation.

It also hurts me via proxy

This is because I am maimed framed and intelligently persecuted to be destroyed

Let me explain what you already know

It is a movement of oppression that which I can prove-and I will.
Please do not put your hand up to act as one of the oppressors!

It is also an issue where by there is a stand off with the systemic government agencies and institutions, the attorney general, Josh Frydenberg and Greg Hunt the federal health minister on a number of occasions years apart.

I have cancer and I've been outright denied an oncologist.

Just kidding sounds bad doesn't it?

What if cancer was an allegory for an acquired brain injury or apparently severe mental illness, and I neither had a psychologist not a psychiatrist not a neurologist

I need these to assess the injury I sustained from my suicide in a public hospital - it was deemed a 'Lethal' suicide and 'fatal' in descriptions from the hospital FOI.

As such, this 'suicide' was the result of sustained systemic local state and federal government vile oppression and accuse victimisation of one person - me.

This continuation after hospital when I was released to squatting - has increased dramatically

Victimisation is against the law.

The NDIS and Plan Partners role in rejecting over 42 invoices that was confirmed

I have evidence :

- A systemic oppression that desecrated my business and
- Ruined my very life and further
- Denied me healthcare and (Please address this URGENTLY)
- Any medication that maimed me rendering me (Please address this URGENTLY)
- Rendered me a vagrant, (Please address this URGENTLY)
- I have no LAC (Please address this URGENTLY)
- I have no support (Please address this URGENTLY)

- Nearly a year after my 'fatal' suicide attempt, I have no psychiatrist nor psychologist nor carer nor support no LAC (Please address this URGENTLY)
- I have been directed to the NDIA but they deflect and defer any outcome
- I need an urgent plan review but no date is forthcoming (Please address this URGENTLY)

1. Plan Partners told me that The NDIS put a blanket ban on paying my invoices and this is p-art of the stitch up I will hold also you minister responsible for if you do not address it within 5 business days.

2. I have tried many times to call the NDIS to no avail hence this email

3. I have tried in desperation to email the NDIA the NDIA quality and assurance and compensation and also plan reviews - with zero outcome hence my letter to you to action this immediately (See generic outcome with zero timeframes below)

4. In an incredibly cold method of systemic gaslighting and indicative of the movement to desecrate me

1. I am hungry (Please address this URGENTLY)

2. I am squatting - my rent is months late (Please address this URGENTLY)

3. I am hot (Please address this URGENTLY)

4. My dog has no food (Please address this URGENTLY)

5. I have been hospitalised twice because a crime of poverty and this movement to destroy me in the last year

6. We eat sardines and toast

7. I barely have a GP because of a complaint I made with AHPRA about a GP and was framed as a dog extortionist

- Upon my release from the hospital in may, only five days after they pumped me back up with blood - they let me go squatting with no food no job and no car - squatting.

- This is against hospital policy (Do you have anything to say?)
- My family rejected me and my support worker get informed to abandon me - and they do

- My friends left and a movement was born to victim blame myself in brutal stigma and oppression
- I had been so appallingly gaslighted ignored and rejected over years and years - that it drove me to suicide
- There is now a cover up about that (I wrote a letter to comensation@ndis.gov.au they did not respond - so respond here)
- Consistently being set up to fail for the sole purpose of:
- Sustaining revenge in that I may kill myself before compensation

That is a vile and unconscionable blasphemy that has seen my finances destroyed my voice stolen and my agency to change my situation hopeless - they will kill me... 'they' means YOU if you decide to delay and defer my prosperity which is legal and just.

I actually refer to it as a conspiracy to manslaughter or murder (had I not been revived in the hospital).

Further to that suicide, I was so effectively framed that the HCC and MHCC and OAIC and even the Victorian Ombudsman condoned the death as nothing to see.

The hospital CEO was thrilled with his immunity from being sued - he knows I am banned from police and from being a whistleblower at ASOC APRA The Ombudsman and also IBAC, that I have zero money and blacklisted.

He acts with a smugness that is audacious in the extreme aware he can act with impunity before the law and authorities when he dared me to sue him directly and personally.

You too - can follow suit of the many other agencies that have banned blacklisted and rejected me.

This is one sectors chance of atonement towards me - otherwise I will hold you solely responsible for the injustice.

It is the Governments responsibility to look after its marginalise citizens.

I will be publishing the outcome of this letter

1. Why have I not got an LAC (Address this)
2. Why are over 42 of my invoices cancelled (Address this)
3. Why is all of my funding with the4 NDIS/A (Address this)
4. Why won't anyone reply to me (Address this)
5. Why do I barely have a GP, a psychologist or psychiatrist or utterly necessary medication - if I had cancer and I was refused an oncologist there would be outrage (Address this)
6. What is the reason behind this resonance prejudice that has rendered me a vagrant that the NDIA elongate in risking my death by suicide (Address this)
7. The will my urgent plan review be and who will do it (Address this URGENTLY PLEASE)

I had suffered immensely always battling up hill - and I with immense suffering and distress and further oppression which put me at great risk - I fought a bureaucratic conspiracy to pervert the course of justice - and it is still ongoing.

This was reverse engineered by myself, picking away onion layers upon onion layer - wondering for years and years why I was getting zero traction or justice for my many issues in which I had faced stigma discrimination and neglect, haven g been unwell, fired, humiliated publicly in the media and shamed and ostracised from my family and society

This is despite being niche famous for writing a human rights awarded autobiography in which I was fired and publicly crucified. Now I am infamous.

Now it seems through falling into a trap of trying g to prevent suffering in others - in that they never had to suffer as I did - I spoke hundreds of times local state and national in The Australian parliament and all the today shows and all the radio shows.

I am sure you have been worded upon me - as have been rejected from the auditor general and senior figures including other

parliamentarians and Greg hunt

It only served as an altruistic method to put a human face to something so taboo - yet it further identified me as one who was 'mad' - it is a stigma impossible to shake despite a PhD proving critical thought.

Issues that were projected back onto my person for the courageous move of being extremely vulnerable in a tell all autobiography on my experience with 'schizophrenia'

The aim of this movement I believe and can prove's aim is to amplify my financial desecration and my emotional distress so I may kill myself, or at least elongate the time I am at great risk, as a thrice suicide survivor at least - once deemed fatal - does not take rocket science to assess as likely.

I urge you to act.

As I am starving - I will expect a WRITTEN email back within five days.

Otherwise when I make moves to hold to account those conspiring to pervert the course of justice I will name you.

Please be kind and if you cant then be kind

However to be kind - this letter needs to be urgently acknowledged

Is utterly demonic

Rich McLean

PS I am awaiting a reply from the Attorney general Michael Cash. I suggest you go over her head to reply to me.

Here is a letter from my landlord

This Hung Ho, a landlord of an Ndis participant Dr Rich Mclean

NDIS number 430938559 at 2 McCubbin St Footscray, Vic, 3011.

I have his permission to access these details.

My tenant has been apparently victimised by the NDIA and rejected his invoices in eluding emergency medium term accommodation.

Plan partners say there is a blanket ban from the NDIS but the NDIS deny this.

The reason he cannot pay rent (so I camn pay my mortgage) is:

42 of his invoices have not been paid and the NDIS/A a d planned partners refusing to reimburse him has rendered him a vagrant

He has suffered a suicide attempt and has a mental illness - and a brain injury

He also has shown me evidence that he is being financially ruined across government agencies including the NDIA/S and planpartnerts - he has shown me a whopping 42 invoices not being paid

Nothing he do gets traction.

I have a new baby with my wife - our second - and my mortgage repayments have not been paid for the home he is living in

If my tenant is not reimbursed for the medium term accommodation which his plan provides for and has enough funds - I will evict him without further notice

Why have these reimbursements not being paid, as well as 42 others? It is affecting my family's life and prosperity and has desecrated my tenants life

Richard has been beside himself with financial distress and he says he has been frequently suicidal - and he believes the NDIS are

purposefully putting him at risk of death by suicide before he gets his justice issues met, and he believes he is framed

It is a governments responsibility to look after its most vulnerable people - that's what the NDIS/A is for - and its not as if he does not have the funding

Richard has already called Greg hunt the health minister because unbelievably

- He has no dr
- No psychologist
- No psychiatrist
- No care and zero support
- He has lost his family
- He has not got an LAC
- He has been told he is directly managed by the NDIA - is this true and if so - why will you not answer my questions about his reimbursements

I really do not want to have to deal with a suicide in my rental property - he is obviously at risk yet says he isn't

Do you condone as an NDIS/A representative that you commit me to have to evict him if you do not action all his invoices immediately?

Why has he not got a local area co-ordinator as is usual and common for any participant

I warn you I want to help Richard but it is beyond my control.

I have two babies a wife and two mortgages to look after.

Richard says this is the last chance he has at being housed.

Also, why has the NDIA not given him a plan review date?

Hung Ho

Hi Richard

As of the date of this email 26th Dec 2021, you are 1 month behind in rent as well as unpaid 1 month bond

Rent overdue \$3292
Bond Overdue \$1,646
Total \$4938

Our family have been extremely understanding & flexible given your current circumstance and have been covering your payments throughout the year.

Unfortunately, with the new arrival of my baby just days ago, this is not a sustainable situation.

The line item for these invoices to be paid are within Richard's NDIS budget and is :Medium term accommodation:

01_082_0115_1_1

Otherwise these should suffice, to save Richard from being evicted.

12 Improved Health and Wellbeing
08 Improved Living Arrangements
14 Improved Life Choices

In addition, 'everyday expenses' should NOT include a computer

and a phone. These are not items bought every day - he needs a phone as a human right so that he can speak to police or the crisis assessment team with.

If Plan Partners or the NDIS/A do not approve this minimum reimbursement for his phone and his computer (is is permissible to get an iPad and have basic human dignity in line with his plan), then it is clearly evident framed by his recording with federal health Minister Greg Hunt (forcing him to address this with the NDIA) that there is indeed, a movement to desecrate Richard of which he will hold the Government to account.

I will support Richard

In-order to continue to occupying the property, we request the outstanding payment be made **immediately** as per usual account (details below)

Dear Dr McLean

My decision about your complaint | 2022-100368

I am contacting you about the contact you made with our Office in relation to the Administrative Appeals Tribunal (AAT). You contacted our Office by telephone on Monday and that you also sent emails to our Office this week. As a result of these contacts, we created a new complaint, reference 2022-100368.

I understand from your recent email that you have an upcoming telephone direction hearing at the AAT, scheduled for 31 January 2022. In your email, you asked our Office to adjourn these proceedings. You said that that you were dissatisfied because the proceedings were supposed to last half a day, however you were not given sufficient time as your hearing was scheduled to begin at 4:30pm.

To clarify, our Office has a limited jurisdiction in relation to the AAT. The extent of our jurisdiction is the 'administrative actions' of the AAT Registry, including how it considered and responded to complaints. It does not appear, from the information that you have provided that you have made a complaint to the AAT about this issue.

The Ombudsman's Office will generally decline to investigate a matter until it has been raised as a formal complaint with the agency involved. This provides the agency with an opportunity to resolve the matter first, and we have found it is usually a more efficient way of resolving a complaint. You can make a complaint with the AAT here: [Complaints &](#)

[feedback | Administrative Appeals Tribunal \(aat.gov.au\)](#).

If the AAT do not respond to your complaint or you are dissatisfied with the response you receive from the AAT at that time, you are welcome to contact our Office again and we can consider your complaint further. At this stage I will close your complaint.

In your recent correspondence, I note that you also indicated that you had concerns about not being recognised as a whistleblower. It is unclear whether you are referring to the Public Interest Disclosure Scheme (the PID Scheme). The PID Scheme is overseen by the Commonwealth Ombudsman Office. Further information about the PID Scheme can be found here: [Public Interest Disclosure - Commonwealth Ombudsman](#). Information about how to make a disclosure of a PID can be found here: [Information for Disclosers - Commonwealth Ombudsman](#).

Yours sincerely
