

Dear HCC,

DDLs, Monash Law, MHCC (I want my FOI where is it please?), IBAC, Vic inspectorate, MERCY HOSPITAL

ODSC please acknowledge this I beg of you - did not know you existed!

This is for the HCC but you all need to hear it.

Can you all please indulge me in a response?

You have refused to acknowledge my complaint below, and that was submitted to Weribbee Mercy and additionally via MHCC - the MHCC have now appointed a lawyer who is supposed to be impartial but is defending the hospital to take over my case yet she is uncontactable unethical and is criminal in not giving me my complaint response in unedited form before now when she has it.

This is as well as Mercy Hospital - who have been trying to cover up facts and also have not officially responded to my complaint by email letter or phone and refuses all communication. This is criminal.

In this recording, which you need to listen to -

(Inserted here)

<https://www.dropbox.com/s/odo7p2y12nbk2mi/07.05.2021.alex.tinter.speak.wednesday.12th.refuses.to.answer.questions.refuse.s.to.send.the.hospital.response%20copy.m4a?dl=0>

is between myself and Ms Tinter from the MHCC who abruptly took over Cathy's role in my case without reason - made on the 12th May 2021, who utterly refuses to:

- a) answer my calls
- b) Provide an email address or phone number to contact her on,
- c) Has received a response from Weribbee Mercy Hospital responding to my complaint - yet outright refuses to let me see a copy of it (uncensored or edited), until she has a chance to edit it in conjunction with 'management' and 'colleagues', at the MHCC which I know will distort the response and defend the deficits of the hospital and the way I was treated.

That information is mine to have. It is not hers to indulge herself or colleagues in to edit and change before I see a proof directly from the hospital.

Mercy Hospital refused to give it to me. This is a crime perverting the course of justice which carries an over ten year jail term for those civilly found complicit and abating it.

I reserve right to make a recording under exemption of the surveillance act 1999, in which it states I may do so to protect my prosperity, litigation or legal standing. (RE; the recording between Ms Tinter and I),

This will now go to the Commonwealth Ombudsman today.

This is so all this framed by me killing myself under duty of care with an agreed illegal contraband confirmed by Dr Lagrasso and narrowly escaping death is bought to justice for my suffering and abhorrent treatment.

These are the responses I require:

- 1) Weribee Mercy Hospital with the original response to my complaint, without MHCC editing or censorship litigation eyes going over it to pervert the course of justice or editing it in any way, and also sent to me immediately,
- 2) An explanation why they refuse to acknowledge all emails and calls,
- 3) The MHCC Ms Alex Tinter with the UNEDITED response free from being tarnished by her 'colleagues' (ie lawyers protecting the hospital in its medical malpractice, professional negligence, abandonment of duty of care, allowing illegal contraband into the psych unit),
- 4) I would like it acknowledged that labelling and victimisation of me and the brutality of the police and CAT team only giving me three minutes to get out of the house before the police officer threatened to climb in the window-is victimisation, (framed by a broader conspiracy which was confirmed as NOT psychotic nor delusional in the release notes from the Hospital), and that an abandonment of medication I was on for eight years was maliciously taken away from me massively contributing to my suicide attempt, in which the FOI Hospital notes say 'was a fatal injury' and 'I had no observable pulse', is acknowledged,
- 5) that my FOI from Weribee Mercy is still heavily redacted despite me going to the Information Commissioner and demanding its redaction be reversed, which it was not, and

6) The information lacks the FOI from Salt water Clinic - the public mental health facility I was released to- in all and every way and this needs to be given to me ASAP

7) That I have a diagnosis of ADHD and require my neuro diverse physical disability to be corrected with the approved treatment of dexamphetamine as per recommendations of my treating psychiatrist Dr David Horgan, and this essential medication that saved my life and happiness has been denied to me by a public mental health institute for a vague reason of 'its not policy', when I have recordings of registrar Carly explaining that if someone comes into the clinic with an ADHD diagnosis the script is tended to and this is an essential part of my human survival,

8) For the ombudsman to recognise this is medical malpractice and professional negligence and part of a conspiracy to maim and debilitate me, my happiness my capacity to return to work that has resulted in extremely bad self medicating habits in order to think and survive and Salt Water Clinic knew this.

9) Also acknowledge that Mercy Hosotal referred me to the HCC for a conciliation about the whole thing but because they became aware of the MHCC formalising a complaint exonerated themselves from all responsibility.

10) Every single person who has conspired to pervert the course of justice to do with my health my treatment my worth my prosperity and my liberty and freedoms is responsible for reverting the course of justice and is complicit in trying to dispose of me before I can get traction for justice. This carries a 10-14 year Jail term. Further, identified in this will be all the people that acted in conference and complicit in denying my medication, was aware I took street drugs to survive (I want an exemption from persecution for this as a whistleblower), that anyone with power and money and privilege who acted in a way that defeats my prosperity framed by the fact I am homeless I may bring charges against including but not limited to: The director of The Mercy hospital, all the mental health clinicians complicit in the medication denying caper, the Information commissioner, every contact person at Werribee mercy whom I choose was conspiring, the psychiatrists including Dr Somer who maliciously withdrew my medication leading to the suicide attempt, and anyone who then covered it up and attempted to silence my just position of litigation for compensation. More to come.

11) In nearly three months of being 'homeless' and bereft of any prosperity after I was discharged from hospital - where're the exit statements say I am absolutely NOT delusion NOR paranoid about he 'conspiracy', affirming what I

already knew - that it was real,

- I have only spoken to a psychiatrist ONCE in my entire time at salt water clinic the extension of weribbee mercy Public Hospital who of course I am attempting litigation with to sue.

For someone who tried to kill themselves with utter intent slashing an artery and bleeding out for 45 mins till no blood was left - it beggars belief that something as profoundly upsetting and disturbing as that has not been justified or valued in any way without ONE psychologist nor a psychiatrist.

I am agape in disbelief. It is so much more than a bad public mental health system - this is systemic malicious abuse in denense of protecting those at fault and impositions of privilege money and power - designed to main reject destabilise and maim me bereft of any prosperity or power - and hope with malice and hatred that I will die of my own hand before I get the chance for justice,

I can see it as nothing else.

I remain furious all this has transpired.

Ombudsman - please acknowledge this - I would like a reference number and a timeframe when it will be investigated.

These are crucial concerns of brutal injustice and yes - two different suicides (read- 'murders'), that near worked but I survived - if I had have died the coroners report would have proved me as a human rights advocate, and the people responsible would have been tried for manslaughter.

I want it acknowledged the conspiracy to pervert the course of justice is linked to my former partner Steve Iasonidis, a criminal mastermind who worked for ASIO, and that he is protected by them, and that his 1.5 million \$ embezzlement in a tax haven was caught and that he got away with it and no jail time with a fine only.

That he discriminated against me in our relationship and threatened and blackmailed me in such a malicious way he threatened hit men on me, and told me I would go to jail for defrauding centreline.

I want it acknowledged I have made my statement to crime stoppers about the murders Mr Iasonidis was present at, and also acknowledge he left me squatting and took off with a million in super shares and a house he inherited,

and left me bereft of a cent, and that I threatened him with all I knew and suddenly Monash law who was doing the family law matter suddenly had a new manager - just life at the MHCC - and suddenly all cards were off the table in terms of them advocating for me.

Thats how serious this is - and why such extraordinary lengths people are going to including institutions organisations heads of organisations MPs and government agencies.

Dear Mitchell,

I acknowledge your rejection of my complaint against Weribee mercy Public Hospital and also Salt Water Clinic and its operations in Footscray.

It is irrelevant who else I have a complaint with.

I addressed it to you - my saying I will receive an outcome from someone else does not dismiss you from acknowledging me.

In actual fact, as you will be well aware, this complaint related to:

- 1) Weribee mercy psychiatric Unit
 - 2) The intensive care Unit at Weribee mercy public hospital
 - 3) The serious allegation of abandonment of duty of care when I was rejected my medication and further wilfully suicided on their ward, where their duty of care for me as custodians excluding me from society under a mental health act was abandoned and fell desperately short of keeping me safe and alive
 - 4) that The hospital knew full well that I said I would take action and sue them, and that through my FOI I have received heavily redacted copies of my files from that public institution which I have challenged,
 - 5) That the continuation of that care through Salt water Clinic was desperately insufficient to a point where it maliciously is a part of a greater conspiracy to destroy my livelihood and my prosperity and my health and my life in the hope I will take my own life before I get cjust compensation
 - 6) This all goes back to the case of Dr Whitaker at Millenium medical centre,
 - 7) It follows on with complaints about Dr Cooper,
- It follows again with complaints about Dr Horgan

I want to state clearly: I demand in shortest possible timeframe, the FOI from the health complaints commissioner.

This includes absolutely everything I am ever mentioned in including levering all my many many unanswered and non acknowledged email I have sent to you,

If it does not accurately reflect the emails I have sent you, not only will you be civilly and as an organisation held accountable for ignoring a member of the public who is the unwilling victim of a conspiracy, but:

I will be making further statements to relevant authorities.

I am sick to death of approaching institutions who claim to help vulnerable people with serious issues and being told on face value that 'outside jurisdiction'.

As a person with a disability, I demand that you explicate and explain your decision to outright reject my complaint re:

'Health Complaints Act 2016 '

I want you to acknowledge the point in the legislation;ation that indeed can be shown that you as a body cannot investigate this.

It is noted that Mercy hospital when they presented their FOI gave me your organisation to raise an issue with, and your rejection of my complaint is either for or against their expectations of what you would or would not be able to provide me help with in this atrocious human rights abuse issue.

There is a grander conspiracy that is provable by me and by not acting or justifying your position I will label you complete in this cover up to rob me of agency my rights my freedoms my business my life and my health and well being.

Instead of telling me you can't help: please explain the bodies and/or civil people or professional people that you CAN investihgate.

You have now been earmarked as an organisation who has ignored many emails from me and in a neutral tone but with official files and an incident number has utterly outright rejected me.

You are on notice.

If it is not sufficient that this FOI be sent to you - please provide the email I need to send it to as a matter of urgency.

Any delay will look in credibly bad for you personally and the HCC who has rejected ostracised and gaslighted me in the past in terms of the Dr Whitaker case...you know the one?

I remind you that The hospital specifically gave your company/in

situation name and address I have evidence of in order to raise a complaint or conciliation (I'll show you if you want - just let me know).

Get to work.

Regards.

Dear Dr McLean

HCC - Our Ref: 2021/01696 - Werribee Mercy Hospital

This office was established under the *Health Complaints Act 2016* to resolve complaints about health services.

I acknowledge receipt of your correspondence and it has been placed on your file.

As per our discussion on 28 April 2021, you indicated that this matter is currently being addressed by the Mental Health Complaints Commissioner and they have stated that you will be provided an outcome to your application on 8 May 2021. This matter is not within the jurisdiction of the Health Complaints Commissioner, as the service was provided in a Public Mental Health Ward within Mercy Health.

You may wish to contact the Mental Health Complaints Commissioner for updates regarding your application.

Yours sincerely

Mitchell Morabito
Customer Service Officer

Subject: Re: Contact with the MHCC and urgent intervention by HCC please

Hi Cathy

I have cc this to the health complaints commissioner. I don't want to

die but you must urgently intervene for a conciliation with Weribee mercy hospital

I am sorry to hear you are leaving-I hope it on good terms

I hope it is for your greatest good and highest happiness

Thanks for listening to me and my story and acting on it

I look forward to hearing from Mr Tinter hopefully soon otherwise I will be on the streets probably within a week

May I please ask if he has a different role than you in terms of his relationship with the law?

I received my FOI from mercy hospital where we both know they treated me so woefully

It is highly censored

I have asked for it to be uncensored

To this date I still don't have a psychologist or a psychiatrist in the public mental health system under mercy Heath salt water clinic and I identify this as malicious intent to harm me

They have not provided me with medication for the ADHD I have been diagnosed with by Dr David Horgan

I attach a scan of his recommendation and have email confirmation of this diagnosis

If I had cancer and they refused radiation therapy this would be malpractice

We both know there is a conspiracy to kill me

I have all the evidence

Lest for my family I am sick because I don't have the medication and I am depressed with a range of issues of conspiracy to pervert the

course of justice and I am homeless and squatting.

I have no joy no life no happiness exists

As a suicide survivor I request this urgently because taken to a head.

On the letter from mercy it said that I can apply for conciliation at the health complaints commissioner which I suppose is a non direct invitation to intervene

So I am cc-ing this email to them to urgently intervene

I have lost my job

I am sick

I have no care

I have nothing and squatting

I will not allude to death because that will notify the cat team-I don't want to just survive I want to thrive but I can't see a way forward

unless a conciliation happens

Or my income protection pays

Or my super company does not deny me

Or the police listen to me

And many other issues I have lost

I fed my beautiful dog bread tonight

It's just my feeling that unless urgent intervention happens I will be on the street - from there anything trivial or lengthens the process now for an outcome in which I have any prosperity or help is like rearranging the deck chairs on the titanic to stop it sinking

The hospital discharge validate my "paranoid ideas" as real and I am not psychotic.

I am a victim for sticking up for myself and of malpractice and more

I will cc this now to the health complaints commissioner.

HCC can you please urgently intervene and acknowledge this email

Failure to do so is complicit in the conspiracy to kill me

Thanks and I wish you all the very best in all dimensions and this life

Thanks

Dear Dr McLean

I just wanted to let you know I am retiring at the end of this week. I have organised for a new worker, one of our legal team, Ms Alex Tinter, to take over management of your complaint. This should not change anything for you and as you know we are still waiting for the service response. I am sure Alex will be in touch as soon as we

receive the response.

Kind regards
